

ENVIRONMENTAL POLICY

It is the objective of So.G.Aer. S.p.A to operate the airport activities of: development, design, work execution, upgrading, management, maintenance and use of the facilities and airport infrastructure, apron management, parking car management in the surrounding areas adopting the principles of environmental protection and pursuing continuous improvement of its own Environmental Management System. In particular, So.G.Aer. S.p.A aims to:

- *carefully observe the environmental regulations applicable to its own activities;*
- *systematically measure the environmental impacts of its own operations, to understand and measure their effects and identify their causes;*
- *rigorously plan its own environmental objectives and related targets, develop relevant programs and continually monitor their performance, putting in place when necessary, suitable corrective actions;*
- *implement programs aimed at reducing energy consumption, containing pollution and, in general, at minimizing the negative environmental impacts of its own operations, evaluating, from time to time, the feasibility of using the best available technologies on the market;*
- *commit to generating and managing waste so to promote, when possible, recovery and recycling rather than disposal;*
- *minimize the environmental impacts of new services, technologies and activities through the use of appropriate planning systems and procedures designed for this purpose;*
- *develop, put in place, review and continually improve its own Environmental Management System*
- *promote the involvement and the training of its own employees on environmental matters;*
- *promote the adoption of correct environmental behaviour by Suppliers and Companies who work on behalf of So.G.Aer. S.p.A;*
- *maintain open and constructive relationships with the Territory in which So.G.Aer. S.p.A operates;*
- *make available its own expertise in the field of environmental management in order to promote general progress towards a sustainable development;*
- *introduce suitable methodologies for the control and audit of its own Environmental Management System.*

This Policy is communicated to all So.G.Aer. S.p.A employees, to its suppliers and its customers.

This is available to the public and to whoever requests it.

The Chairman of So.G.Aer. S.p.A
